DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by, or in the alternative under 35 U.S.C. 103(a) as being obvious over Fischer (2805201).

Fischer teaches a composition which comprises an ethanolamine of a dimerized vegetable oil (linoleic acid), a mineral oil (kerosene) and anionic wetting agent (see examples IV and VIII), which is used to treat a wellbore. Both water or brine and oil are in the wellbores, thus an emulsion is formable (column 4, lines 5-9). To the extent that the wells treated therein were drilled with an oil based fluid, the claim is anticipated. In the alternative, since no specific drilling mud is disclosed, it would be obvious to one of ordinary skill in the art to utilize the composition in wells drilled with either oil or water based muds.

3. Claims 3-7, 11, 12, 14-16, 18-21, 23-29, 31-33 are allowable over the art of record.

4. Applicants amendment and argument have been considered but are not deemed persuasive with respect to claim 17. As shown in Fischer, the composition is added to

Art Unit: 1712

the wellbore, wherein an emulsion is formable (see above rejection). Claim 17 is thus not seen to be distinguished from Fischer.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
